00:09:18.5 HCP1 Okay.  
00:09:20.0 PT So nice. [Laughter]  
00:09:20.1 HCP1 Yeah.  
00:09:22.0 PT Thank you  
00:09:22.5 HCP1 Yeah, we'll come back in a couple minutes.  
00:09:24.3 PT Okay.

00:09:26.7 – 00:23:05.8 BREAK IN CLINICAL INTERACTION

00:23:06.3 PT Hi. HUPC  
00:23:06.7 HCP3 How you doing? 3 950003  
00:23:07.7 PT I'm great. How are you? HUPC  
00:23:09.3 HCP3 So, you know, we're trying to figure out – um, your viral load has gone down, but it's not – it won't go down all the way. 1 61WFO-  
00:23:15.7 PT Okay.  
00:23:16.5 HCP3 So we looked back, and we looked at the resistance that you have, and you have a little bit of resistance. I think we had talked about it once before, because we sent – um, we sent some other labs to see if we could change your meds. Um, to make a long story short, one of the labs that we sent they couldn't do because your viral load wasn't high enough, so we're sending it again. 1 4  
00:23:38.5 PT Okay.  
00:23:39.3 HCP3 The other, um – you know, the one that you had resistance to that – which is called Emtriva, or 3TC – lamivudine – is part of the Truvada, so we're going to switch your meds a little bit until we get back this other test. 1  
00:23:53.9 PT Okay.  
00:23:55.1 HCP3 The other test is going to tell us if you're eligible to take less pills. 1  
00:23:59.4 PT Okay.  
00:23:59.8 HCP3 You know, there's a newer med. So we think – you know, we want – really want to get your virals all the way down, you know, to keep you healthy. 1  
00:24:06.0 PT Okay.  
00:24:06.5 HCP3 So, the four meds you're going to take – I'll just write it out. It's, you know – you're still, um – it was the darunavir, right?

Or Prezista. I think you probably now it as Prezista. And then you're taking Norvir with that. So this one actually is used to boost the Prezista – give it a big [P]. And um, then the other one you were on is Truvada. J

00:24:34.0 PT Truvada. CML+

00:24:34.3 HCP3 Q Instead of Truvada, you'll take Tenofovir, which is – was part of the Truvada. J ADV-

00:24:40.0 PT Truvada. HUPHIV

00:24:40.3 HCP3 Q And then we're replacing that other half of the Truvada with, um, Abacavir. Um, actually we gave it in a combined tablet called Epzicom so that you only have to take one pill. J ADV-

00:24:52.5 PT Okay. LUP+

00:24:53.0 HCP3 Q Okay? J O CLOO

00:24:53.8 PT Mm-hmm. LUP+

00:24:54.3 HCP3 Q So, it just – we tried to keep it as simple as possible. If we gave you just the Abacavir, you'd have to take it twice a day, you know? It would be a mess. So this is easier, but it's four pills instead of three until we get back the test, and then maybe we can get it down to two. J ADV-

00:25:09.8 PT T So, as of today, start taking the. J HUPHIV

00:25:12.3 HCP3 Well... | [CML+]

00:25:12.8 PT Well, whenever it comes. J

00:25:14.5 HCP3 Q Yeah, you have to wait for Mark to deliver. J O GINFO+

00:25:16.2 PT Okay, but in the meantime still take the Truvada? HUPHIV

00:25:18.5 HCP3 Q Right, take what you have, because that still has the Tenofovir that you need in it, okay? | O GINFO+

00:25:22.4 PT Okay.

00:25:22.8 HCP3 But your viral load is going down, it just won't – J

00:25:26.1 PT Yeah, okay. LUP+

00:25:26.8 HCP3 Q So... Now, um, I heard, like, no unprotected sex. J O RCM+ S

00:25:31.1 PT No, no. CML+

00:25:31.6 HCP3 Q So you're not worried about having picked anything up. J O RCH+ C

00:25:33.4 PT Nope. CH+

00:25:33.9 HCP3 Q And um, you haven't been to the ER or the hospital. J O SO

00:25:38.2 PT No. HUPD

00:25:38.6 HCP3 Q So let me take a quick look at you. Anything that you're concerned about? No? J @ SS @ CQO

00:25:44.9 PT I'm eager to learn the results – the next results. CHT+

00:25:48.8 HCP3 Q Yeah, we'd like to get the pills down to less. That would be nice. J @ ADV-

00:25:52.7 PT So, that would be it. HUPHIV

00:25:52.8 HCP3 Q A lot of people are resistant to that one medication – the 3TC. It's easy to get resistant to. And like old school, we keep the medication so, uh – because keeping it on keeps you from getting resistant to other things. It's the old way. Some people don't believe that anymore, but it doesn't hurt to take it. J @ INFO+

00:26:10.0 PT Okay. LUP+

00:26:10.8 HCP3 Q Um, you still working at the call center? J @ CQO

00:26:15.2 PT Mm-hmm. HUPD

00:26:15.6 HCP3 Q Okay. Um, are you back in school, or no? J @ CQO

00:26:19.0 PT I'm still in school, yeah. HUPD

00:26:20.0 HCP3 Q You're still in school? J @ CQO

00:26:20.0 PT Mm-hmm. HUPD

00:26:20.7 HCP3 Q What are you taking now? J @ CQO

00:26:22.1 PT Um, now I'm taking Biology 250. HUPD

00:26:25.1 HCP3 Q All right, all right. Good for you. J @ SS

00:26:27.6 PT Um, and two English classes and a math. HUPD

00:26:29.7 HCP3 Q Whoa, what English classes? J @ CQO

00:26:30.9 PT English 119 and English 115. HUPD

00:26:35.5 HCP3 Q Do you like it? J @ CQO

00:26:36.6 PT The 115, yes. The 119 is – HUPD

00:26:39.2 HCP3 Q What's the matter with the other, with the 119? J @ CQO

00:26:40.6 PT There's a lot of writing. HUPD

00:26:41.3 HCP3 Q Yeah? J @ CQO

00:26:41.5 PT Lot of writing. HUPD

00:26:43.2 HCP3 Q And do you usually like to write? J @ CQO

00:26:44.3 PT No. HUPD

00:26:44.7 HCP3 Q No? J @ CQO

00:26:45.9 PT Well, I'm doing it, so I'm learning how to get in the environment where I can write, so... HUPO

00:26:52.5 HCP3 Q Yeah? So that's a lot of classes. Do you work full time? J @ CQO

00:26:55.9 PT Yeah, but it's – it's a lot of downtime. HUPO

00:27:00.0 HCP3 Q Okay, so you can study and stuff during downtime? J @ CQO

00:27:00.0 PT And then when I'm sitting at the computer – so, yeah. HUPO

00:27:01.9 HCP3 Q That's great. That's great. J @ SO

00:27:03.4 PT So yeah. Then a lot of my – um, both my English classes are online, so when I'm down I can be on there. HUPO

00:27:08.7 HCP3 Q Oh, cool, cool. So you do this online. How long does it take you to finish a course? J @ CQO

00:27:15.0 PT Uh, a course is running from like January to May. HUPO

00:27:18.4 HCP3 Q Okay, so you have to finish it in that timeframe. J @ SO

00:27:20.0 PT Yes. HUPO

00:27:20.0 HCP3 Q It's not, like, open-ended. J @ SO

00:27:21.4 PT Yeah. HUPO

00:27:21.9 HCP3 Q Okay. Well, cool, cool. All right. Everything's online. [Laughter]. I'm looking for – I want to look in your ears. I'm just looking for the ear... There's one. Found it. J @ SO

00:27:40.0 HCP1 Here is a bigger one. HUPO

00:27:42.6 HCP3 Q That's okay. I think I got one that'll fit on here. Let's see. Looks fine. And anything else that's bothering you? J @ CQO

00:27:53.5 PT No. HUPO

00:27:53.9 HCP3 Q So the medications – um, any side effects or problems from them? No? J @ CQO

00:27:58.8 PT No, not that I can – no. CHL+

00:28:00.3 HCP3 Q Excellent. Because you'd noticed if you – J @ SO

00:28:02.9 PT Yeah, yeah. HUPOHIV

00:28:03.3 HCP3 Q Let's see the back of your throat. So the sort of things you wouldn't notice, we monitor for. You have like a coating on your tongue – J @ CQO

00:28:11.8 PT Yeah.

00:28:12.2 HCP3 – maybe from... Do you have any allergies, or...? J

00:28:13.9 PT No, my mouth was just dry. I haven't had nothing to drink, yeah. HUP0

00:28:17.5 HCP3 G Yeah? So this probably is just, you know, the season. I'm going to have you sit down back here. I love your shirt. J @C00

00:28:24.4 PT [Laughs] Thank you. LUP+

00:28:25.2 HCP3 G Cute, cute. Deep breath. If you'd lie back, I'd just like to check your liver and your spleen as long as you're here. So do you work the night shift, or what? J @C00

00:28:53.2 PT Uh, I actually start on Monday. I will be days pretty much, but I'm – it's still days. I work – now it's 12:00 to 9:00, and then, um, starting Monday I'll be 8:00 to 4:00. So then – then I – HUP0

00:29:06.8 HCP3 G Do you prefer that? J @C00

00:29:08.4 PT 8:00 to 4:00? Uh, yeah. So then I can still get off and do other things, and then there has to be time for the summer if I'm still there. HUP0

00:29:16.1 HCP3 G Yeah? J @C00

00:29:16.3 PT Then I have a – like I was telling them, I was going for, um, [Maritime Petroleum]. They have, uh, a job opening. I go for my testing. HUP0

00:29:24.7 HCP3 G What would you do there? J @C00

00:29:25.4 PT It's something with refinery. I'm not sure exactly what it is, but they said they train – they're training for it – and I filled it out and am doing my tests on the second. HUP0

00:29:37.0 HCP3 G Cool, cool. So, we'll keep our fingers crossed for you. J @SC

00:29:39.6 PT Yes. \$25 an hour. I need it. [Laughs]. HUP0

00:29:42.7 HCP3 G Yeah, so as long as you like it; that's what matters – and they pay you well. J @SC

00:29:46.6 PT I hope so. HUP0

00:29:48.4 HCP3 G Um, so you don't smoke cigarettes. You do still smoke pot, but do you smoke about the same as you used to, more, or less? J @C0BN

00:29:57.5 PT A little less. CML+

00:29:58.5 HCP3 G A little less? J @CQECHT+

00:29:58.5 PT A little less. CML+

00:29:58.6 HCP3 G Okay. Good. Good for you. J As you get older, cutting back a bit is a good idea. J Do you ever feel that it interferes with J @AFL  
G GING -  
J [CQECHT-J]

things that you want to do? ]

00:30:07.1 PT No. CHT+

00:30:08.0 HCP3 Q No? ] Q [CQECHC+] ]

00:30:08.0 PT Not really, no. CHT+

00:30:08.5 HCP3 Q Okay. And um, you drink, um, alcohol a few times a month? ] @CQIBN

00:30:16.1 PT Just – yeah, most of it, like I was telling them, is wine, but other than that, no. CML+

00:30:21.3 HCP3 Q And is that by yourself, or with your friends? ] @CQIBN

00:30:23.4 PT With my friends. HUP HIN

00:30:24.1 HCP3 Q With your friends? What about when you're smoking the pot. Is that by yourself or with your friends? ]

00:30:27.2 PT Friends.

00:30:27.4 HCP3 Q Friends? ] Okay. We always ask because, you know, we worry a bit less if it's social, as long as it's not, you know, like, constant. 1 @CQIBN

00:30:35.8 PT Yeah, yeah. 2 @GINFO+

00:30:37.4 HCP3 But just to, you know, remember that marijuana impairs you like alcohol does, so just to... People sometimes forget just to be careful. Um, I don't think there's anything else. You've been doing well. We're happy with your numbers, except the viral load – 3 AFL 4 @GINFO-

00:30:52.5 PT Viral load. 1

00:30:52.8 HCP3 – isn't as low as we'd like to push it, so we just want to push that the rest of the way down. ]

00:30:57.0 PT Okay. LUP+

00:30:57.9 HCP3 Q You know, because we're fussy. ] @SO

00:30:59.7 PT I like it. [Laughter]. HUP HIN CHT+

00:31:00.5 HCP3 Q Yeah, the lower we keep it, the better your T-cells stay through life. So I'd like you back in a month, okay? ] @GINFO-

00:31:05.4 PT Okay. LUP+

00:31:06.2 HCP3 Q So that we can recheck the new meds. Um, we're going to call MedCard and make sure that they deliver ASAP and deliver the right stuff. Any problem, give me a call, okay? ] @GINFO-

00:31:14.8 PT Okay. LUP+

00:31:15.6 HCP3 Q You know how to text me or reach me or – you know. ] @SO

00:31:22.9 PT And what is that? HUP0

00:31:24.4 HCP3 Q It's, uh, 313-461-5245. Now remember, text me, don't call. J

00:31:31.1 PT Texting. HUP0 @SO

00:31:31.4 HCP3 Q Because if I get a number that I don't recognize, I won't always answer because I don't know who that is. J @SO

00:31:36.4 PT Yeah. LUP+

00:31:36.8 HCP3 Q And then when you text, tell me who you are so I don't have to say, huh? J @SO

00:31:40.8 PT Yeah. [Laughs] LUP+

00:31:42.1 HCP3 Q Who's this? So just - you know? J @C00

00:31:43.5 PT Yeah. LUP+

00:31:43.8 HCP3 Q And then I'll get right back to you, okay? J @C00

00:31:45.1 PT Great, thank you. LUP+

00:31:46.7 HCP3 Q Okay, take it easy. J @SO

00:31:46.9 PT I will. HUP0

00:31:47.9 HCP3 Q And uh, here's your stuff for the lab. J @SO

00:31:49.6 PT Okay. LUP+

00:31:50.1 HCP3 Q Okay, you're good. J

00:31:51.4 PT Thank you. LUP+

00:31:52.3 HCP3 Q So come on, we'll walk you up to the front and get you an appointment. J @SS

00:31:56.5 PT She's really nice. I like her. HUP0

00:31:57.7 HCP3 Q I know. We like her to keep coming back. J @SO

00:32:00.6 PT When you retire, I might be able to find her. [Laughter] HUP0

00:32:03.2 HCP3 Q Yeah, that's good, you know? We're going to have to go find her to, like, keep training here and stay. J @SO

00:32:10.5 HCP1 [Laughs] Thank you. LUP+

00:32:13.8 HCP3 Q And I'm supposed to sign in. Okay. J @SO
